EDUCATION

Ambalika Institute of Management and Technology, AKTU
Bachelor of Technology in Computer Science and Engineering

2023 – 2027

CGPA: 7.68/10 (Till Sem V)

SKILLS

Languages: Python, JavaScript, TypeScript, HTML5, CSS3, C++ (Fundamentals)

Frontend: React.js, Next.js, Vite, Tailwind CSS, Framer Motion, React Router DOM, Responsive Web Design, PWA

Backend: Node.js, Express.js, Flask, REST API Development, JWT Authentication, Google OAuth 2.0

Database: MongoDB, MongoDB Atlas, Mongoose ODM, Data Modeling, NoSQL Database Design, Supabase, PostgreSQL

AI & Automation: Generative AI, Prompt Engineering, Vector Search, RAG Fundamentals, OCR Processing, PDF Processing, Gemini API Integration

Tools & Platforms: Git, GitHub, VS Code, Vercel, Render

PROJECTS

HAIRDRAAMA TASK MANAGER github.com/kartikshukla2301-eng/Hairdrama-Task-Manager

Tech Stack: Next.js, TypeScript, Supabase, Flask, Resend, Vercel, Render

- Engineered a production-grade full-stack task management platform using Next.js, TypeScript, Supabase, Flask and Resend.
- Implemented Google OAuth 2.0 authentication with role-based task assignment, progress tracking and team collaboration workflows.
- Integrated automated email notification pipelines via Flask REST APIs and Resend for task assignment and completion events.
- Designed and managed PostgreSQL database schemas in Supabase for scalable, multi-user task and user management.
- Deployed production-ready frontend on Vercel and backend on Render with secure environment variable configurations.

AI STUDY ASSISTANT github.com/kartikshukla2301-eng/ai-study-assistant

Tech Stack: React 19, Vite, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, JWT Auth, Google OAuth, OCR

- Architected a production-ready full-stack AI learning platform with 8,000+ lines of code across React 19, Node.js and MongoDB Atlas.
- Engineered OCR-powered PDF intelligence for extracting and processing educational content from uploaded documents.
- Implemented secure authentication using JWT and Google OAuth 2.0, enabling protected user sessions and account management.
- Developed 10+ AI-powered study features including Chat Assistant, 7-Mark Answer Generator, Notes Generator and Exam Kit Mode.
- Designed scalable RESTful APIs for PDF ingestion, OCR processing, chat history management and personalized learning workflows.
- Built as a PWA with mobile-first responsive design, multiple themes and seamless cross-device accessibility.

ULTRA AI CHATBOT github.com/kartikshukla2301-eng/UltraAi-Chatbot

Tech Stack: Python, Tkinter, Google Gemini API, PyInstaller

- Developed a desktop AI chatbot using Python, Tkinter and Gemini API with a modern dark-themed GUI; packaged as a standalone Windows executable via PyInstaller.

ACHIEVEMENTS/CERTIFICATIONS

- MongoDB Overview: Core Concepts and Architecture – MongoDB (Credly) (2026)
- Full Stack Web Development Workshop – SoftPro India Computer Technologies Pvt. Ltd. (2025)
- Claude Code: The Coding Assistant – Analytics Vidhya (2026)
- Generative AI with AWS – Analytics Vidhya (2026)

POSITIONS OF RESPONSIBILITY

Social Media Head, IEEE Student Branch: Led digital outreach, social media engagement and promotion of technical events for the IEEE student community.

IEEE Student Member: Active participant in professional development and technical networking activities.
